PROFESSIONAL PROFILE

Designer and Developer with 10 years of experience building scalable, user-centred web applications across technology sectors. Specializing in design systems, UI architecture, and bridging design and engineering teams to deliver high-quality, production-ready interfaces.

EXPERIENCE

UX/UI DESIGNER

- Tignis/Cohu
April 2023 – February 2026 | Remote
- Established and maintained a scalable design system.
 - Implemented an iterative, user-centered design process, aligning features with real user needs.
 - Designed high-fidelity mockups and interactive prototypes to validate product concepts with clients before development investment, supporting sales conversations and influencing roadmap decisions.
 - Contributed directly to product implementation by developing reusable UI components using JavaScript, JSX, and React, collaborating via Git-based workflows to ship production-ready updates across applications.
 - Participated in cross-functional code reviews, improving UI quality, consistency, and maintainability while strengthening collaboration between design and engineering.

UX/UI ENGINEER

- Company Name
July 2021 – February 2023 | Remote
- Utilized Sketch and Figma to develop user personas, user flows, wireframe mockups, and high-fidelity clickable prototypes that informed various project designs.
 - Constructed high-fidelity mockups with Sketch and Figma
 - Updated the UI of a legacy web app using React and CSS to improve both design and usability.
 - Developed an internal admin app on Next.js with Tailwind that pulled data from an API.
 - Built responsive and accessible components for the flagship app using Next.js and Tailwind.

UX SPECIALIST

- Aventri/ ITN International
February 2018 – January 2020 | Calgary, Alberta
- Produced mockups, high-fidelity prototypes, and digital assets, including logos and icons, using Adobe XD, Illustrator, and Photoshop to support the development process.
 - Collaborated with the UX/UI team to conduct user testing with Userlytics
 - Developed and implemented a company design system with accessible, SEO-optimized components using HTML, CSS, and JavaScript.
